# Moving Sediment Management Forward Four SedNet Messages

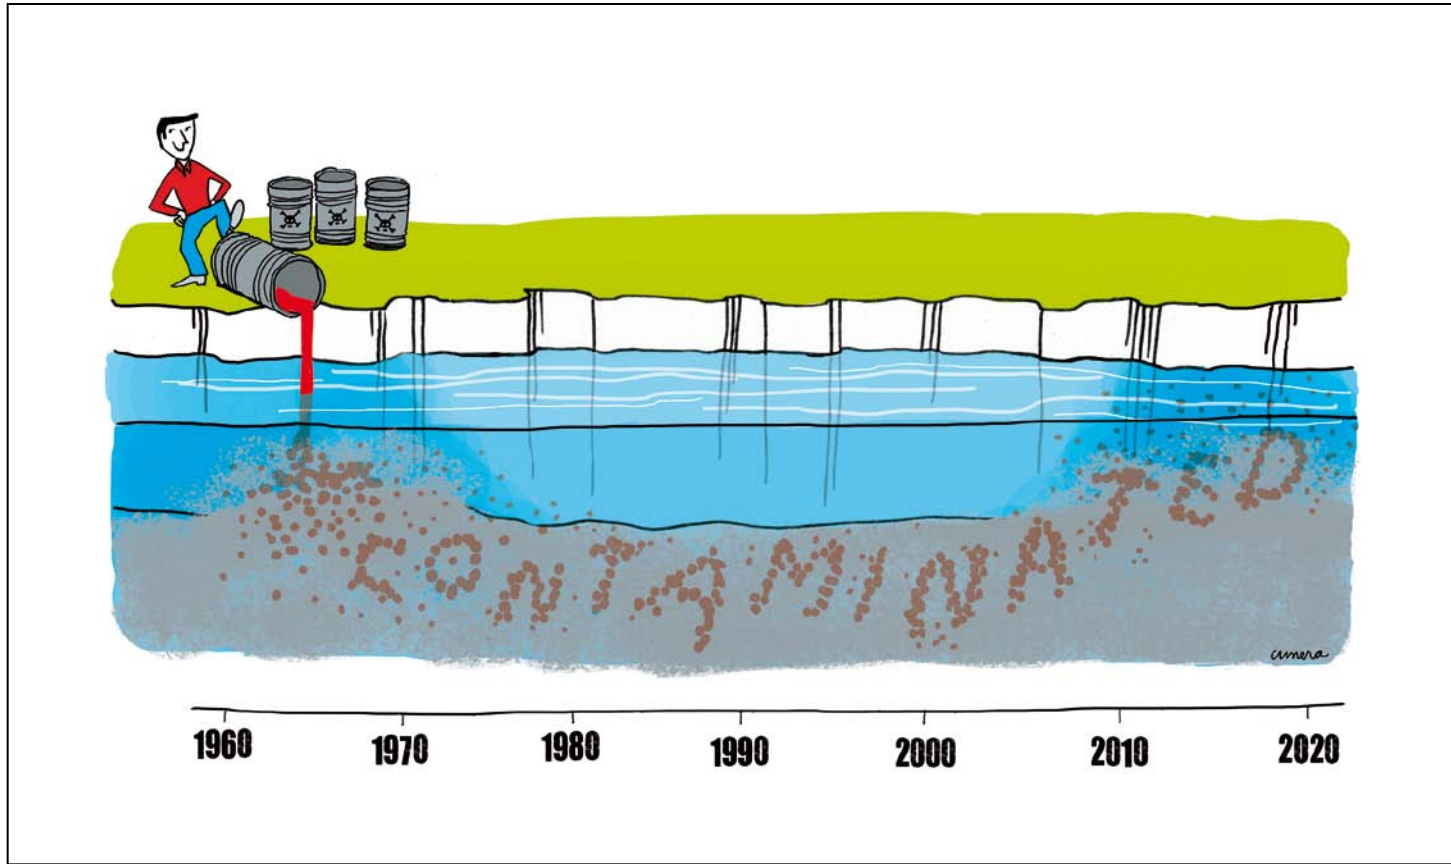

## Sediment quantity and hydro-morphology

Platform Session: Understanding sediment fluxes and budgets on a river basin scale

# Moving Sediment Management Forward Four SedNet Messages

## Sediment quality and remobilisation

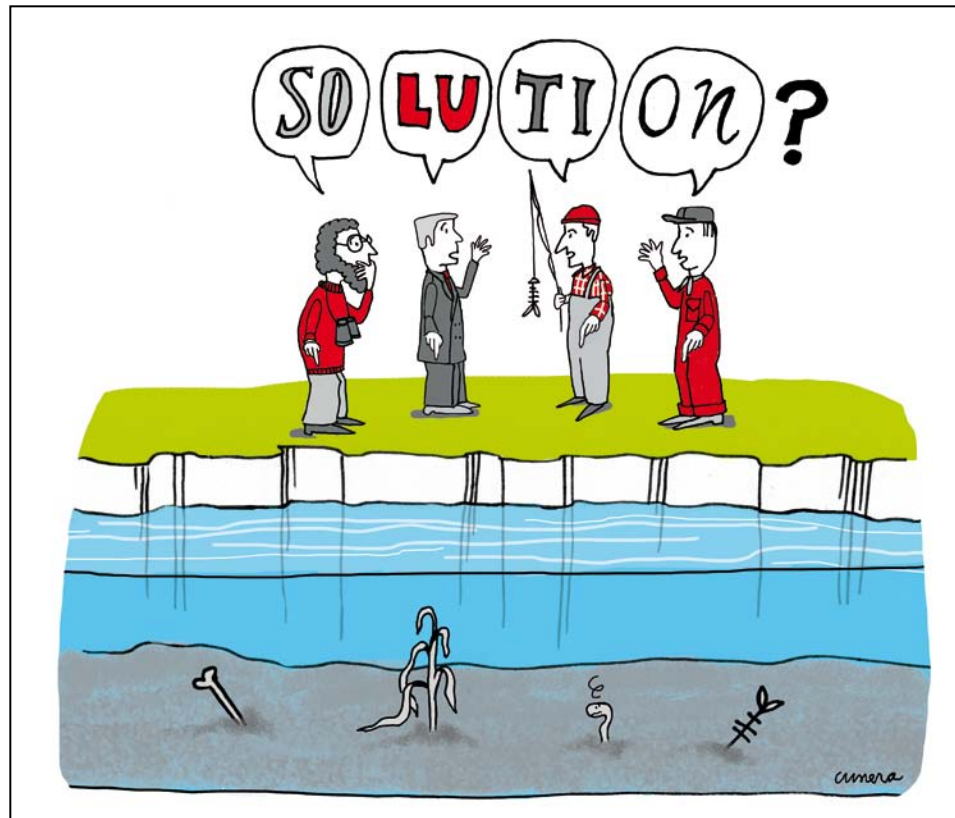

Platform Session: Sediment quality and perception

SedNet Working Group: Sediments in a Changing Environment

# Moving Sediment Management Forward Four SedNet Messages

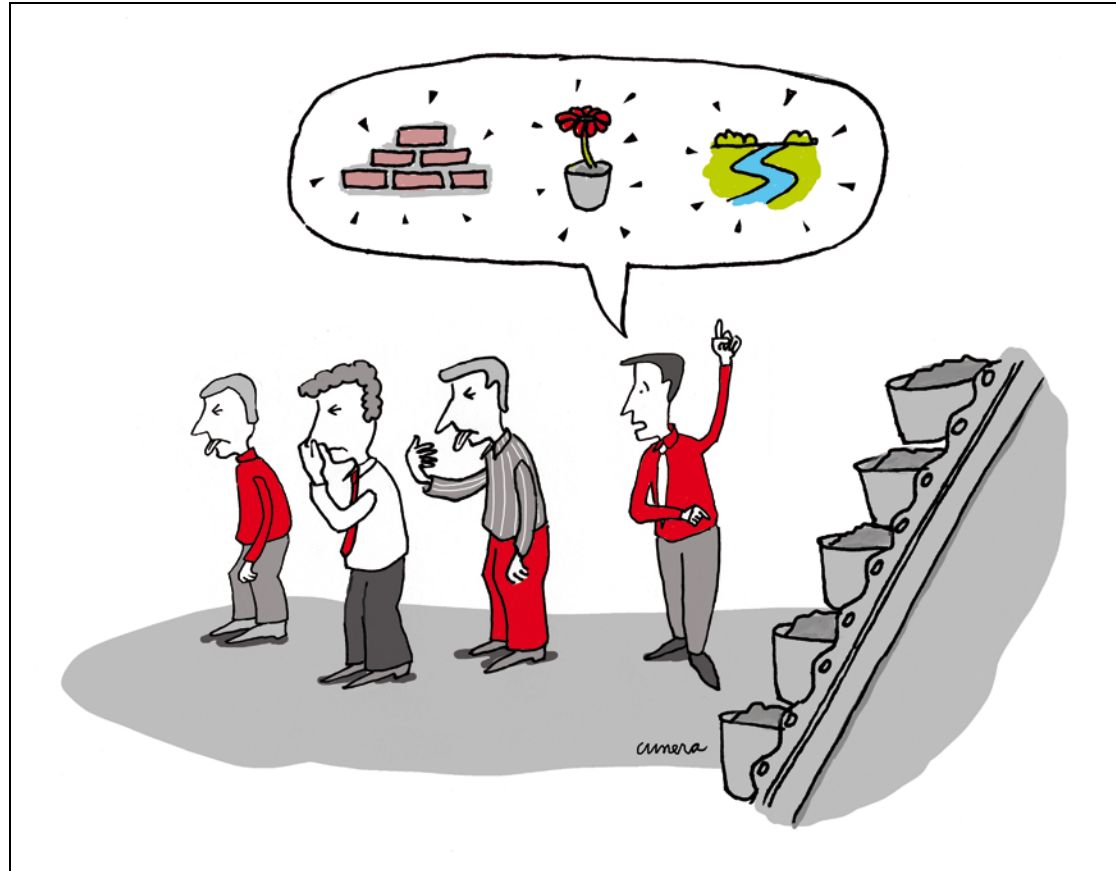

## Sediment and river ecology

Special Session: Impact of fine sediment on ecology

# Moving Sediment Management Forward Four SedNet Messages

## Dredged material management

Platform Session: Building with dredged material / sediment  
Workshop on Reuse of (contaminated) Sediment

- Platform sessions:
  - Sediment and Society
  - Sediment in historical and recent mining areas
  - Sediment remediation and uses
  - Valuing sediments and their services
- Special session
  - How to build public trust for sediment management
- Workshop
  - Sediment Discharge Test
- SedNet Working Group
  - Science and Policy Interfacing: Getting sediment at the European strategic research agenda.

- Platform sessions / Special sessions / Workshops
- SedNet Working Groups
- Poster Sessions
  - Poster Corner Sediment Management: Wednesday 18:00-19:00
  - Poster Corner Polish Sediment Issues: Thursday 13:00-14:00
  - Every day at coffee breaks and after lunch coffee at Posters!
  - Poster Award: please submit your vote!
- Sediment stories
- Excursions
- Networking

## Call for papers for AGH Journal Geology, Geophysics and Environment

- Special issue on sediments
- See website SedNet: [www.SedNet.org](http://www.SedNet.org)
- Please submit paper according to instructions AGH
- Let us know this week by email [marjan.euser@deltares.nl](mailto:marjan.euser@deltares.nl)  
or tell Marjan Euser if you are submitting a paper!
