

Valuing sediments & their services

ecosystem services (ES) =
what people value from nature

session in two parts:

- A. Mapping and assessment of sediment and their services (**MAES sediment**)
- B. Examples of applying sediment related ecosystem services (**Sediment ES**)

A. MAES sediment

Leon Braat:

Action 5: MS, with the assistance of the EC:

- will map and assess ES in their national territory
- assess the economic value of such services, and
- promote the integration of these values into accounting and reporting systems at EU and national level by 2020

Miguel Perez Quesada:

- Master thesis MAES sediment asked for by SedNet steer group
- Suggestions on what ES indicators to be mapped, how and data availability

B. Sediment ES

Thomasz Koniarz:
soil fertilized with sediment

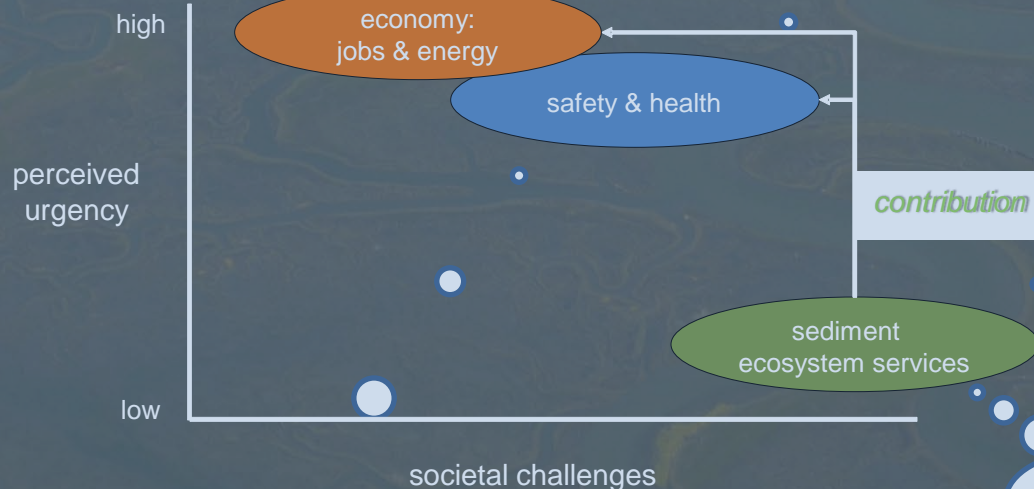

Arjan Wijdeveld:
lowlands uplifted with sediment

Profit

People

Planet

Sabine Apitz:
managing the trade-offs is a very complex task: we have to take a systemic approach

thank you ecosystem!

Sabine Gerbersdorf:
toxics immobilized via microbial biostabilization
