- the Direction of Sea, ports and littoral
- the Direction of Communication and public relations
- the Division « Eco-Development », Sustainable development, new models for development, environment, social and public policies: **Eric Kniaz and Patrice Maurel**

12th International SedNet conference “Sediment Challenges and Opportunities due to Climate Change and Sustainable Development”, 29 June – 2 July 2021

Simultaneous event with I2SM 7th International Symposium on Sediment Management

Thank you: BRGM

Patrick Charbonnier,
Deputy Director for Territorial Action

Pierre Pannet,
BRGM Director for Hauts-de-France

12th International SedNet conference “Sediment Challenges and Opportunities due to Climate Change and Sustainable Development”, 29 June – 2 July 2021

Simultaneous event with I2SM 7th International Symposium on Sediment Management

Thank you: I2SM

Nor Edine Abriak, chairman

Mahfoud Benzerzour

Rachid Zentar

12th International SedNet conference “Sediment Challenges and Opportunities due to Climate Change and Sustainable Development”, 29 June – 2 July 2021

Simultaneous event with I2SM 7th International Symposium on Sediment Management

Tuesday 29 June 2021

- Opening Session (morning)
- Parallel Sessions (afternoon):
 - Circular Economy
 - Sediment Assessment and Management – concepts and policies

Wednesday 30 June 2021

- Parallel Sessions (morning):
 - Circular Economy & Impacts of Disturbed Sediment Continua and Mitigation Measures?
 - Sediment Assessment and Management – concepts and policies
- Parallel Sessions (afternoon)
 - (Re)using Sediment to Create, Keep or Restore Habitats
 - Sediments in Coastal-Marine Management and EU Strategies
- Networking and Poster Sessions

12th International SedNet conference “Sediment Challenges and Opportunities due to Climate Change and Sustainable Development”, 29 June – 2 July 2021

Simultaneous event with I2SM 7th International Symposium on Sediment Management

Thursday 1 July 2021

- Videos sites, pilots, technologies
- Networking
- Discussion Platforms

Friday 2 July 2021

- Parallel Sessions (morning):
 - How to Deal with Emerging Substances / PFAS / Microplastics
 - Climate Change and Sediments: Direct and Indirect Consequences and Opportunities
- Networking and Poster Session (afternoon)
- Closing Session

Special thanks to:
Bruno Lemière!

with support of

- Jean-Remi Mossmann
- Aline Coftier
- SedNet SG and Secretariat

Enjoy our 12th Conference!
